World-Happiness-Report-2019-using-R-Programming

Public

Interactive analysis and visualization of the World Happiness Report data to explore global well-being trends and key factors affecting happiness

☐ HTML

Regression-Explorer

Public

Linear regression is a statistical method to model the relationship between a dependent variable (y) and one or more independent variables (x). We will explore both simple and multiple linear regression.

☐ HTML

northwind-sales-analytics-visualization

Public

Developed actionable business insights from Northwind Traders sales data using customer segmentation, trend analysis, and visualization techniques to support strategic decision-making.

retail-sales-performance-analysis
